Subject: Current velocities

Hi Jeannie:

The commenters states:

I noticed today that we were assured that the current was very mild. But there was no figures of how many meters per second the water flow was over this dump site, or at least the maximum. It varies during the month.

Ex. 5 - Deliberative Process

Bernward

Jim, please confirm/revise. Thanks.

Bernward,

Ok to your responses.

My email today on velocity responds to your email last night, so please read it and get back to me with confirmation.

Also I have included the new acronym list in the RTC outline,

Ex. 5 - Deliberative Process

Also, I am updating the RTC so we have a final review before sending it to you..

So please confirm that there have NOT been changes to Section 2.2 and 2.3 of the RTC outline since the earlier RTc document... and the one that you have that is dated 102616.

?? thanks
